Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can one over his customer free gifts or goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Knew We Had a Good Thing in the Stock of Goods

We bought by electric light a few days since. There is so much clap-trap clothing advertisements in vogue just now that we refrained from saying very much about the purchase. We simply called the public's attention to it by telling them to look at the display of these goods in our windows and note the prices on them. We knew we would sell some of them. The warm weather left a doubt as to selling a great many now. The doubt is dispelled. Since the day we opened this purchase and placed them in our windows our store has been crowded with customers anxious to secure these unheard-of bargains. We advise our friends who contemplate buying Fall Suits and Overcoats not to let this opportunity slip. It is only once in a long time that circumstances arise that enable merchants to secure first-class clothing that can be sold for less than the cheaply gotten-up stuff that is flooding the market just now.

Our \$2, \$2.50 and \$3 Custom-Made

SHOES!

That we warrant to give satisfaction and cheerfully return the money if they do not have quickly sprung into favor. Out of town mail orders—of which we receive many—receive prompt attention. Look at our show windows; none like them in the state.

SLIGHT ACCIDENT.

Two Buggies Have a Collision on the Road Near This City.

An accident, which fortunately did not result seriously to any of the parties, occurred on the Mt. Carmel road near this city last night.

Mr. Nicholas Ring, accompanied by Miss Mamie Adams and sister, was returning from the wedding of Mr. Louis Hotze, and Mr. Henry Colburn, driving the Misses Ford of this city, was on his way to the home of Mr. Hotze to spend the evening.

The night being quite dark the two buggies collided, badly wrecking the vehicles, but fortunately only slightly bruising the occupants.

Y. M. C. A. MATTERS.

What the Local Association is Doing For the City's Young Men.

The Directors of the Association are requested to meet at the Rooms tonight at 7 o'clock prompt. Important business to be transacted.

Rev. F. M. Tinder of Mayfield gave a very helpful and inspiring talk last evening on the subject "A Man and His Conscience." The address was thoroughly enjoyed by all those present and was very beneficial in its import as the speaker impressed all with his earnestness of delivery and manner.

The last of the series of special meetings for men in the Y. M. C. A. Rooms will take place this evening at 8 o'clock.

Mr. H. E. Rosecrance of Louisville, State Secretary of the Y. M. C. A., will speak on "The True Life." Mr. Rosecrance will bring a message of special importance to the members and other young men of the city and there ought to be a large attendance at this closing service.

Mr. Ernest Daulton will render a vocal solo accompanied by Mr. Lee B. Gray on the clarinet.

MR. HENRY C. BENDEL.

His Death Occurred Yesterday Afternoon After a Lingering Illness.

After a lingering illness, the death of Mr. Henry C. Bendel occurred yesterday afternoon at 4:30 o'clock at his home on Short street.

For over six months Mr. Bendel has been a patient sufferer from lung consumption, and his death, though sincerely regretted by his many friends, will not come in the nature of a surprise.

Mr. Bendel was a native of Ohio and was born in 1843. For long years he has been a resident of this city, being connected with the shoe making business.

Besides his wife, who was formerly a Miss Miller, Mr. Bendel leaves four children, two sons, Charles and Lewis, and two daughters, Misses Emma and Selma.

Deceased was a member of the G. A. R., of Ringgold Lodge No. 27, I. O. O. F., and of the Washington Fire Company.

The funeral will take place from his late residence on Short street tomorrow afternoon at 2 o'clock, with services by the Rev. D. D. Chapin of the Church of the Nativity, and the honors of Odd-fellowship.

Interment at the Mayfield Cemetery.

FUNERAL NOTICES.

Members of Ringgold Lodge No. 27, I. O. O. F., are requested to meet at their Hall Saturday, November 20th, at 1 p. m., to attend the funeral of Brother H. C. Bendel from the residence on Short street, at 2 p. m.

The Nicaraguan Government has determined to send a commission abroad to sell or lease the National railroads.

Dr. C. C. Owens, who was injured in the recent runaway, is now able to be out.

The remains of Mrs. Judge Kenton, who died Wednesday at her home at Mt. Olivet, were interred yesterday.

WHAT A FARCE!

One of the Follies of the Civil Service Fraud Now in Force.

The Washington correspondent of The Cincinnati Commercial Tribune recites one weak feature in the Civil Service which was developed at the Treasury Department a few days ago.

The weather is getting cold, and the building has not been heated to the liking of Secretary Gage or the comfort of the employees.

Inquiry as to the cause developed that the heating department was shy on coal shovels.

This is a position within the Civil Service, and Major Brackett, Chief of the Appointment Division, made a requisition on the Commission.

But one name was submitted, that of a colored man down in Tennessee.

The law requires that three shall be sent in response to a requisition, and Major Brackett called the attention of the Commission thereto, receiving the reply that only one man, the Tennessee Negro, had passed the severe examination required for this \$45 a month job.

The Tennesseean was sent for, and a reply was received that he could not afford to pay his railroad fare and come to Washington for what the position pays.

A coal shoveler is still wanted at the Treasury; the occupants of the building are shivering, and they do say Secretary Gage is not so infatuated with the Civil Service as he was before the cold weather set in.

KENTUCKY WESLEYAN.

Something of the History of a Leading College of Kentucky.

Church College Day was observed at the M. E. Church, South, in this city last Sunday in the annual sermon by Dr. E. H. Pearce, President of Kentucky Wesleyan College at Winchester.

The corporational foundation of Wesleyan was given in 1793, in the founding and charter of Bethel Academy in Jessamine county. This corporation expanded into Augusta College at Augusta, Ky., 1831-1841, thence through Transylvania at Lexington, Millersburg and now at Winchester since 1860.

The relocation at Winchester has brought new life and outlook to the College. Two new academy properties, as part of the College system, have been secured to the College in the past two years, the total academic and collegiate enrollment the past year, under the one system, being 384—the largest in College history, save one in 1847 when the matriculation was 455, under the Presidency of Dr. Bascom at Lexington.

A notable characteristic of Kentucky Wesleyan is that whilst under the auspices of the Methodist Church its thorough work and unsectarian character gives it growing patronage from all the leading denominations of Kentucky and the South.

No less than four Eastern Universities and institutions of high grade were represented in University honors awarded to E. W. C. students last year—at Johns Hopkins, Princeton, University of New York and the United States Naval Academy at Annapolis.

Wedding Presents.

We are now on the threshold of the great wedding season. It is now that almost daily our attention is called by a dainty invitation to the fact that some of our friends are to be married. NEWS NOTES FROM NATURE'S GREAT HIGHWAY.

The W. F. Nisbet passed up last night for Pomeroy.

The Sunshine will pass down tonight from Pomeroy.

All attempts to raise the sunken Sherry have proved futile so far.

The Henry M. Stanley passed down last night from Pomeroy and returns to night.

The Keystone State, 24 hours behind time caused by fog, passed down at 6 p. m. yesterday from Pittsburgh with a trip, the first Pittsburgh boat to land at the wharf in three months. She will pass up this afternoon on her return trip.

The Ohio river reports are encouraging. Thursday's reports indicate that there will be possibly an eight-foot stage at Pittsburgh. There is 6.8 at Pittsburgh, 5.2 at the Dam, 3.6 at Albany at Oil City, 9.8 at Wheeling, 6.5 in Kanawha at Charleston, 6.7 at Pt. Pleasant, 6.8 at Catlettsburg, 5.2 at Portsmouth. Rises of over one foot have occurred at Pittsburgh, Wheeling, Pt. Pleasant, Portsmouth.

The rise at Pittsburgh has permitted the big coal fleet to find sufficient water to start Southward and while their progress may be slow they will come with the present rise. Private advices Thursday morning stated that some of the tows had already started and it is expected that there will be sufficient water to permit the shipment of from eight to ten million bushels of the black diamonds. All this coal is to be delivered either at Cincinnati or Louisville.

Buy Headlight Oil from C. Wetzel.

Why pay four prices for your Plumbing when George H. Traxel will do it for one price and do it first-class? For reference I can refer you to some of the largest, handsomest and most satisfactory jobs in our city that I have executed.

The attraction at Washington Opera-House on Monday, November 22d, will be Chas. E. Blancy's "A Baggage Check" and is the best play that author has produced, in spite of the fact that he has written several popular successes. In "A Baggage Check" everything from costumes to specialties is new, and the general effect produced is pleasing in the extreme. One thing which impresses itself on the audience at first glance is the youth and natural beauty of the women in the play. It is rarely that a company contains an entire cast of women who are all attractive from a standpoint of physical beauty; yet this can be said of all the members of "A Baggage Check" Company.

The comedians are clever and have been selected for their peculiar fitness for the characters they portray, and are headed by the clever young Clyde Stanley, who will be seen as Billy Butts, introducing several new specialties; Jos. Harrington, who will be remembered for his clever work in the "Star Gazer," is another prominent member of the cast and will be seen as Les Conboy, the laundry proprietor. A special feature has been made of the musical portion of the programme, which comprises everything from comic opera to the latest popular comic song, and particular attention has been given to the harmonizing of voices, etc.

How to Cure Bilious Colic.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. BUTLER, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by J. James Wood, Drugist.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

It is understood that a good many of the gentlemen who had to do with the framing of the Chicago platform of 1896 now regret that they are not in a position to join Uncle HORACE BOISE in his self-congratulation that he was not a participant in that incident.

The reports from Pittsburgh announce that every blast furnace in Allegheny county is at work for the first time in three years and that more furnaces are now in operation in that section than ever before. Yet Mr. BREYAN, whose Ohio trip carried him into the iron section of the Ohio valley, insisted that he saw no indication of increased activity.

It must be a disappointment to those low-Tariff advocates who were expecting to disturb the political atmosphere with groans about increased prices to find that the net average increase in prices of articles affected by importation is under the Dingley Law less than one per cent, while the increased earnings of those employed in the manufacturing industries and in agriculture, which depend largely upon industrial activity, have been far greater than that.

AND now word comes that China is contemplating an abandonment of the silver standard and a falling in line with the progressive Nations of the earth in the adoption of the gold standard. If this thing keeps up much longer, Senator TELLER will have no further use for his elaborate argument in which he holds that the United States cannot maintain her commercial relations with other parts of the world in competition with the Nations having a currency made of a cheaper metal than that upon which ours is based.

FREE-TRADERS who expected support for their peculiar views from the English statesman, MURRAY, will be disappointed to know that he has taken pains to point out the fact that the exportations of the United States have increased three times as fast as her population during the Protective Tariff period. Mr. MURRAY shows in a recently published article that while the increase in population in the past twenty years has been 58 per cent, the increase in the value of exportations has been 175 per cent, and practically all that under a high Protective Tariff.

THE exportation of manufactures goes steadily on under the Dingley Law, despite the assertion of the Democrats that a return of the Protective system would reduce our markets for American manufactures abroad. The value of exported manufactures, the product of American workshops, during the first nine months of the present year, amounts to \$212,478,810 against \$184,807,004 in the corresponding month of last year, while in the month of September, 1897, there was an increase of between one and two million dollars over September of the preceding year.

ANNUAL REPORT

Of Secretary Bliss, of the Interior Department.

Estimated Appropriations for the Fiscal Year 1899, \$156,532,410.

Total Indian Population of the United States, exclusive of New York and the Five Civilized Tribes, 171,178. The Work of the Dawes Commission.

WASHINGTON, Nov. 18.—Secretary of the Interior Bliss, in his annual report, made public Thursday night, submits estimates aggregating \$156,532,410 for appropriations by congress for the fiscal year ending June 30, 1899. Discussing pensions, he says 300,000 pension claims are awaiting adjudication, and it is estimated that 40 or 50 per cent of these will be finally admitted. If they are rapidly adjudicated they will swell the pension roll from \$6,000,000 to \$7,000,000. When, however, these claims are adjudicated and the first payment made thereon the amount of the pension roll will decrease very rapidly, possibly to \$135,000,000 or \$130,000,000 the first year.

The total Indian population of the United States, exclusive of the Five Civilized Tribes, approximately 171,178, located on 177 reservations, which contain approximately 33,404,837 acres. Of these 4,545 have accepted allotments of land which aggregate about 84,147 acres. Secretary Bliss says while the opening of the Wichita reservation in Oklahoma to white settlement would develop that country, yet in view of the unsettled condition of the questions affecting their rights until there is further legislation, he does not see how it can be done without causing great injury and distress. To guard against this, recommendation is made that the Dawes commission be authorized to investigate questions as to their rights and claims and report recommendations for speedy and just settlement.

Referring to the work of the Dawes commission, it is announced that the investigation of the rights of applicants for citizenship in the five nations has been practically completed; the commission has been preparing the rolls of citizenship of the several tribes and has negotiated three agreements. That with both the Choctaws and Chickasaws of April 28, 1897, is before congress and has been ratified by those tribes. That made with the Creek September 27 last, was rejected almost unanimously by the Creek council and there is little prospect of any further agreement with them. The Choctaws have refused to make agreement and negotiations with them have been abandoned for the time being. Such agreements as have been concluded are so in their provisions that in view of the fact that eventually a uniform system of allotment will be made for the Indian Territory, it is questionable, says the report, whether any of the agreements should be definitely ratified by congress until the department and necessary uniformity can be secured. The secretary says the five tribes have undoubtedly violated in many ways the spirit of their agreements with the United States under which the territory is now held and governed, and while he does not recommend any harsh government, the secretary calls the attention of the president and congress to the chaotic condition of the affairs of the territory growing out of the several tribes' method of administration. Leading Indians have absorbed great estates in the acquisition of the common people, and government by an Indian aristocracy has been practically established to the detriment of the people. From 1890 to 1896, 980,000 whites by permission of the Indian government have settled in the territory but are merely tenants suffering.

Concerning the Secretary Bliss says existing conditions demand a radical change in the laws relating thereto. He recommends that the existing land laws be extended to that district, that additional land offices be created and appropriations made to carry them into effect; that the granting of rights of way for railroads, telegraph and telephone lines and the construction of roads and rails be specifically authorized; that provision be made for the incorporation of municipalities, providing for the holding of elections, defining qualifications for voting, and giving such powers as are used and exercised by municipalities elsewhere; that the legal and political status of the native population which is in doubt be defined; that citizenship be extended to the Metlakatla Indians who emigrated from British Columbia, and, under authority of an act of congress approved March 8, 1891, now occupy Annette Island; that the granting of territorial government be authorized and established; and that representation in congress be granted.

WASHINGTON, Nov. 18.—The secretary of the treasury has issued a circular to employes to the effect that clerks receiving a stated salary who neglect to pay their debts contracted for the necessary support of themselves and their families, without presenting satisfactory reasons therefor will not be retained in office.

WASHINGTON, Nov. 18.—Consul Monaghan, at Chicago, has sent to the state department a report of the plans made by Germany for its exhibition at Paris in 1900. Dr. Richter, who took a prominent part in the World's fair at Chicago, has returned to Germany from Paris well satisfied with the space allotted for the exhibition of German industries and manufactures. Mr. Monaghan says the Germans will make every effort to have a splendid showing and are contemplating arrangements for that purpose as fast as possible. Germany will have an industrial palace 700 meters square on the banks of the Seine near the Quai d'Orsay.

Maysville Merchants Sweep Down on the Enterprise Store at Brookville.

For some weeks Mr. C. B. Landham had been conducting the "Enterprise Store" at Brookville.

He appeared to be a "bustler," and bought largely of nearly everything that anybody had to sell, pretty much without regard to price.

Among his creditors were several Maysville firms, and their suspicions were aroused by the peculiar business methods of their customer.

These suspicions were strengthened by the report that Landham had sold out his establishment to Mr. James H. Ware.

brought suit and attached the stock of goods in the Brookville store.

There were three different claims, amounting to nearly \$400, and were for goods sold by the Maysville persons to Landham.

It is charged by the creditors that the sale was made in contemplation of defrauding them and others out of their goods.

The Brookville Bank was garnished and subpoenaed to give a detailed statement of Landham's business operations.

Printers, like other people, have to eat sometimes. That is, if they can get the material. But they can't get the material without money—unless someone gives it to them. Now, if you own a printing press, you will be glad to accept a few country buns, a hushel or two of potatoes, or most any old thing that comes from the farm—and will give full credit at market prices. The three-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of cramp. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved his little boy's life. He is in the drug business, a member of the firm of Johnson Bros. of that place; and he handled a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of cramp. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by J. James Wood, Druggist.
